board. All permits, excepting special cases, will expire on December 31.

Penalties for Violation

Cancellation or suspension of permits will follow any violation of the provisions of the act.

Beer Sold by Clubs

Licenses will be granted to clubs operating in compliance with the laws of the province, giving the privilege of selling beer only for consumption on the club premises. These licenses will not be transferable, will be subject to cancellation and will involve government inspection of the premises and method of operation. Persons buying in such premises must have permits. Beer licenses may be granted to applicants who have advertised their applications and satisfied the board in its various requirements under the act.

Sell by the Glass

Licenses under this head may purchase beer from a vendor or brewer and sell by the glass or open bottle for consumption on the premises, to persons holding permits.

All beer licenses expire with the calendar year. No bar or counter is to be maintained in the premises for which beer licenses are given.

Local Option Provisions

Local option provisions are set forth in the act, giving twenty-five per cent. of the voters in any municipality the right to petition for the setting up of a local option area. A plebiscite may then be taken on the question "for local option," or "against local option" within the municipality, and if an affirmative result is secured no government liquor store shall be established and no club license granted within the area.

Brewers May Deliver

Brewers are given the right to sell and deliver beer to the holders of permits and to clubs. They must make monthly returns to the board, and samples of their beer shall be submitted for examination as required.

Doctors Desiring to Keep Supplies

Doctors desiring to keep supplies of liquor for the use of patients will be given special permits subject to certain restrictions.

List of Prohibitions

There is a list of prohibitions under the new act. Vendors must not sell in any other places than those provided for under the board's instructions. Brewers may not give liquor to anybody. No members or employees of the board shall take any part or interest in any liquor business. No liquor of any kind is to be sold on any premises to a person apparently under the influence of liquor, or to an intoxicated person.

No Liquor Advertising

There is to be no canvassing for orders for liquor within the province, and no liquor advertising will be allowed. No signs, such as "Bar" or "Tavern," will be permitted. No person who does not hold a permit is to have any liquor in his possession.

There is to be no consumption of liquor in hotels except in private guest-rooms, and no person is to have keep, or consume liquor in such guest-rooms unless he is a bona-fide guest of the hotel, registered as such at the

Mayor McDonald Elucidates New Council's Administrative Activities

The Annual Statutory meeting of the Rate Payers of Macleod was held last Friday evening in the Town Hall. Mayor McDonald gave a short resume of the Town's business during the last year together with an explanation of some of the administrative acts of the Council in pursuance of the program of economy which the Council of 1923 undertook to put into effect. Amongst other things he mentioned the water intake and become responsible for the installation of it and the total price of the engine and the building to cover all equipment and everything was about \$8,000.00. The engine is of the best English make with an European late type generator and is giving very complete satisfaction. It is quite able to carry a greater load than the town of Macleod is able to use and so the beneficial result is obtained of being able to take on more power users.

Mr. Oliver is taking a shift at the Power House and this means that the services of one of the engineers can be dispensed with so that the Town is now employing one engineer less than it formerly did.

The Town Utilities are now in a better and more satisfactory position to give efficient service than they have been for some years. Mr. McDonald also mentioned a great saving that had been effected by reason of the present fire fighting methods.

The old horses had been replaced by a motor arrangement and this has given entire satisfaction, dispensing with the services of a care taker and of the upkeep of a team of horses. More taxes have been collected this year than for some years previous and altogether the Town's financial condition is very much improved.

Following the Municipal meeting, a meeting of those interested in School affairs was held with Chairman Day presiding. A reading of the accounts by Secretary E. F. Brown showed that the school board had operated well within the program outlined for 1923. A great deal of the success of the School Board was due to the effective means that had been adopted as to the collection of school dues.

The net profits from the operation of the act shall be divided between the public revenue of the province and the municipalities. A reserve fund is to be created to meet any loss that may be sustained by the government in connection with the administration. Accounts are to be made to the attorney-general.

The act is to come into force and operation on proclamation.

"Miss Naldi is Cleopatra reincarnated," declared Mr. Dwan. "Many leading artists have said that she is the nearest to the famous Egyptian character to be found in America. With her long slender arms and limbs, piercing black eyes and raven black hair, she is wonderful in Egyptian clothes that are bizarre to the last degree, and in a surrounding of ancient splendor."

"In 'Lawful Larceny' we give the public the newest ideas of Egyptian fashions and decorations. We have spared no expense and time in research for this material. Miss Naldi is a charmer of men in the picture and we have given her the latest weapons with which to work her charms."

Not only will Miss Naldi be clad in Egyptian gowns, but she will have a complete Egyptian background for her machinations against men. Every photograph of King Tut-anh-Amen's tomb printed in this country was studied for ideas. No detail was overlooked in making Miss Naldi's latest appearance on the screen the most sensational of her career.

SOLD BY YOUR DRUGGIST**SURVIVOR OF THE BASOFF
RAID IS CAUGHT IN BUTTE**Edmonton, Jan. 24.—Alex Auloff
sole survivor of a gang of three train
bandits who help up and robbed a
C.P.R. train from Lethbridge running
through the Crow's Nest Pass on an
afternoon of August, 1920, was
arrested at Butte, Montana, by
Alberta Provincial Police Detective
Schoeppe, from headquarters.It will be remembered that in this
famous case J. W. McDonald, K.C.,
of Macleod, then acting as crown
prosecutor, procured the convic-
tion of Basoff, the arch-criminal of
the bandits, and who was later sen-
tenced to be hung, and in this man-
ner expiated his offence against law
and order.Conductor Sam Jones of Leth-
bridge, who was in charge of the
train, and whose gold-filled watch,
taken from him by Auloff, has proved
the means of the arrest of the bandit
leader, is on his way to Butte today,
to identify Auloff. The man under
arrest strenuously denies he is Auloff.
Excelling even the celebrated
Picariello case in its breathless in-
terest, the hold-up and subsequent
gun fight in a Bellevue restaurant,
where two policemen and one of the
bandits were shot and killed, and
from which Basoff, the third bandit,
escaped wounded, only to be caught
three days afterwards, and later
hanged, maintained its grip on public
interest until after the hanging of
Basoff, and until Alex Auloff, the
leader of the trio, had apparently
made good his escape by way of
British Columbia.The watch he commandeered from
Sam Jones, the conductor on the train
which he, Auloff and Basoff held up
on August 2nd, 1920, at Sentinel, on
the Crow's Nest line, betrayed Alex.
Auloff into the hands of the police
after a mysterious disappearance of
over three years. With the coming to
light of the watch came to light the
whereabouts of the much-wanted man
for whom the A.P.P. had diligently
sought ever since the train holdup
took place.**Left For B. C.**It was at first surmised that Auloff
had met with the vengeance of his
two companions in making away with
the proceeds of the train robbery
with the \$400 taken from the passen-
gers. The finding later of an un-
known body in a culvert seemed to
substantiate the belief. Assistant
Commissioner Nicholson of the A. P.
P., however, refused to credit the
story, relying on information he had
obtained from Basoff, when arrested
and later tried and hanged for the
murder of Constable Bailey of the
A. P. P. and Corporal Usher of the
R. C. M. P. After the robbery the
three bandits walked from Sentinel
to Crow's Nest station. Akroff and
Basoff then turned back, going east,
as Basoff informed Mr. Nicholson,
with Auloff going west, saying that
he was going on to Michel and then
farther into British Columbia.With the information given him by
Basoff, Mr. Nicholson personally
traced Auloff through the various
lumber camps to Portland, and then
on to Seattle where he found he was
only two days behind him. From
information he gathered, Auloff was
supposed to have gone to Alaska. Mr.
Nicholson took care to give particu-
lars of the watch taken from Sam
Jones, together with the number on
it, at all jewelry stores and pawn
shops in Portland and Seattle and
other towns he passed through in
his chase after Auloff. Detective
Schoeppe was sent down to spend
unlimited time visiting the various
lumber camps, but nothing ensued.
He also left descriptions of the watch.
At the request of Mr. Nicholson, the
Alberta government offered a reward
of \$1,000 to anyone who would give
information which would lead to the
whereabouts of Auloff, and the matter
seemingly ended there.**Watch Located at Portland**On the 18th of January last word
was received at the A. P. P. head-
quarters from the city police of Por-

watch was pawned by a Moham-

the man, and was told by him that he

THE LITTLE OLD LOG CABIN

Little old log cabin, in the clearing 'mong the pines, You're looking mighty desolate and forlorn, Your window's smashed, the plaster's off your walls; Your little stove's all rusty, the chimney's minus, too, The table's gone—why, here's my overalls!

Yes, you're looking rather wabbly and sort of out of tone, Your well caved in, your garden choked with vines, But you still look mighty good to me, The dearest home I've known; God bless you, little cabin, in the clearing 'mong the pines. "E"

FARMERS SHOULD GET SEED GRAIN

Alberta farmers who wish to take the opportunity of securing seed grain from the provincial seed cleaning plant at Edmonton should do so at once, making their application to the seed branch at Edmonton. A considerable number of orders for this grain have been received from other provinces, and countries abroad, but it is the desire that as many farmers in Alberta as possible secure some of this high class grain for seed purposes.

The seed cleaning plant this season expects to handle 58,000 bushels, in comparison to 16,000 handled last season.

ALBERTA'S HELIUM GAS

Attention has once more been drawn by airship experts in London, England, to the fact that the only known supply of helium gas in the British Empire exists in the Province of Alberta, that ten million feet of this gas was going to waste annually in this province, and that the possibility of establishing an airship base at some future date in Alberta was being discussed.

Why Ford Predominates

Low First Cost

The low price of Ford cars and trucks has been one of the great dynamic forces in the development of motor transportation.

Since January 1920 the average price of Ford products has dropped 38% and Ford prices are now the lowest in the history of the industry.

And because Ford prices are so low, the worker and his family enjoy the innumerable benefits and delights of owning an

automobile; the merchant and manufacturer extend their business into new and profitable fields by means of motor delivery; the farmer carries his fresh produce to the best markets with none of the old-time hardship and delay—and all for a very small initial investment.

Fifty out of every hundred cars and trucks in Canada are Fords—due to the public appreciation of Ford value.
